COB DownlightSystem 48VDC
LES14,5

Cover / Mixing-Cap

LED-module

Reflector

YOUR ADVANTAGES

COB in-house production [Made in Austria]

Optimized spectra thanks to wider red-component (improved R9)

Reduced diameter light-emitting surface
LES23 -> LES14.5

Module footprint (mechanical connection)
as before

Accessories

New mixing chamber
(two-part cover incl. reflector plus mixing cap) including mounts - bayonet locks -
for reflectors integrated
(e.g. BJB, Bartenbach-RJR)

Improved efficiency

Mint phosphor

Same color-point as PI-LED—SMD-Modules
(linear & area) -> „same green“

PCR

Same color-point as PI-LED—SMD-Modules
(linear & area) -> „same red“

PI-LED®

COB DOWNLIGHT
