

**EFFICIENT &  
SUSTAINABLE  
LED LIGHTING**

**THE NEW LUMINAIRE CAN BE INTEGRATED INTO  
THE EXISTING HOUSING WITHOUT TOOLS!**

**NEW STANDARDIZED AND TESTED LUMINAIRE**

Housing can be retained (advantages: sustainability and no structural modification of the ceiling required!).  
The new LUMITECH luminaire can be mounted using magnetic clips (no drilling or screwing required)!

**PLUG & PLAY ⇨ EASY TO INSTALL!**

Perfectly matched mounting systems & plug-in connections

We would be happy to send you our proposed solutions and look forward to hearing from you.

**(Sale) BAN /  
Phasing out**  
of conventional light sources  
in 2023

**Safety**  
Conformity to standards, reliability and avoidance of hazards (no further use of old sockets such as, e.g., for LED tubes)

**Energy efficient**  
with the best light  
LUMITECH lighting solutions:  
Flicker-free, highest efficiency (up to 180 lm/W), CRI>90

**Lower energy consumption**  
with the same brightness! With LUMITECH, electricity savings of up to 70% (compared to fluorescent tubes) are possible!

**Rapid amortization**  
– often less than one year  
Plus: Reduced maintenance costs

**Subsidies**  
Simple replacement of the lamps is mostly excluded from environmental subsidies.

**Engineered in Austria**  
Manufactured in Central Europe

**REFIT**
