# K-ZWALLY

NeoLink wall control panel
for NeoLink and ZigBee luminaires

— Luminaires can be switched on and off (optionally: power switch for luminaires and K-ZWALLY)

— Brightness (1 %–100 %), colour temperatures (1,800 K-16,000 K) and colours can be adjusted steplessly

— Separate control of direct and indirect light parts

— Installation and reset of a NeoLink network

— Integration in a higher-ranking NeoLink network (starting from a NeoLink Box, NeoLink USB Stick or an Amazon Echo Plus device) is possible

— Flush mounted in conventional wall sockets with a minimum depth of 61 mm

— HCL mode "automatic daylight sequence", also under consideration of direct and indirect light parts

NEW feature

Combinable with Amazon Echo Plus

□ CE RoHS

NEW feature

The new "Residential" Wally contains a night lowering:
If the Wally-controlled light is switched on between 23:30 and 05:00, the dimming level is automatically set to 5% and 1,800 K.
This applies if either the light is switched on directly by the Wally or the light AND the Wally are together turned on by a switch.
